Dear Professor Sadun,

I am very pleased that you are launching a new wave of the World Management Survey in Italy to look at the impact of management on firm performance. We have a keen interest in new research that enhances our understanding of how management influences productivity, and of course, the role that policy can play in improving performance. This project should make a significant contribution to our understanding of these issues. I am happy for you to mention our support when you contact firms in Italy.

Yours sincerely,

Francesco Giavazzi

Economic Advisor to the Prime Minister
