Dear Professor Bloom,

As president of the Economic and Social Council of Portugal, I would like to show my support for your outstanding Word Management Survey, and in particular for the ongoing survey wave in Portugal. Measuring management practices is crucial for learning how to improve them, which is something Portugal and all its firms are certainly striving for.

Looking forward to learning about and reflecting on the results obtained.

All the best,

8th of August 2022

Francisco Assis

Presidente
